	<p>I am a local businessman and single father of four amazing boys. I have lived in Hurricane for the last nine years and have seen the area go through many changes.</p> <p>Growth is coming to our area and we aren't going to stop it. How we manage that growth is vital to what Hurricane is going to look like 5, 10, 20 years down the road. We want a town that is a shining beacon in this area and one that we can be proud of. While we have had some nice growth in industrial jobs in the last few years, we are falling behind our neighbors in attracting those businesses (shopping, dining, entertainment) that will make our community more livable.</p> <p>Currently, our options in these areas are extremely limited and we are losing tax revenue to our neighbors as a result. My 20+ years in the private sector, running the very types of businesses we need to attract, makes me uniquely qualified to lead Hurricane into the future.</p>
