Voted #1 Course in Utah by

GolfLink's list of the Best Utah Golf Courses details the top public and private golf courses in the state of Utah. Although similar lists are often produced by various golf publications, those magazines tend to rate golf courses based solely on the subjective views and limited experience of a handful of their editors. The GolfLink list is calculated from a more objective range of factors, including the preferences of up to a million or more visitors to our site every month. This makes our Best Utah Golf Courses list the definitive online guide to the top Utah golf courses.
