

My name is Clark Fawcett. My ancestors helped settle this valley. I've lived here my entire life. I have over 37 year's experience as the City Manager of Hurricane. I am a CPA, and I believe in fiscal responsibility. I want Hurricane to grow but not at the expense of losing our quality of life. I want to keep the small town feel and the community spirit. I favor quality of life over commercialism. I want to provide jobs for the local people and to find an affordable housing solution. I raised six children in Hurricane, and it's a great place to live. We have so many people moving to our community who feel the same way. We need to preserve Hurricane by making proper decisions. We can't make the same decisions that larger cities have made that have led to the traffic and social problems they experience. We need to make different decisions to obtain different results. We need to work together to keep our community a great place to live for our children and grandchildren.
