

I was born and raised on a horse farm in Monticello Utah. 4H, rodeo, and FFA were my life. I served as Monticello Rodeo Princess and later as Queen. I learned the importance of serving the community through 4H and FFA . I spent many hours representing Monticello at the 24th of July celebration and county fair. I was involved in many 4H groups and helped teach the younger kids. FFA taught me the importance of agriculture to a community.

Growing up I regularly spent my vacations at my aunt and uncle's house in Hurricane. I always loved my time spent here. I moved here with my daughters after marrying my husband who is from Hurricane. We combined families, our girls grew up here, and we all feel Hurricane is our home.

I'm running for city council to keep Hurricane great. I loved serving the community when younger and look forward to doing it again. I'm excited about Hurricane's future and want to be part of the planning process; I think it's very important to be involved with the community. I am a leader, I listen, I will do my research and do what is best for Hurricane's citizens.
