

Nanette Billings Candidate Profile:

Mayor gives me the opportunity to represent ALL Hurricane residents. I grew up here and raised my family here. Honoring our heritage and preserving for the future are my top goals. A growing community is always challenging. We need to stick with the master plan that embraces the heritage and culture of what makes Hurricane, what it is. A clean, safe, enjoyable place to live, work and recreate.

We maintain our small-town charm by:

-Upholding and defending the constitution.

-Not allowing government overreach.

-Continue to first conserve, then develop alternative water resources. We are currently in negotiations making land acquisitions for 2 new wells in Hurricane. Allowing access to the 156,000 acre feet of water in aquifers beneath our city.

-Maximize the ability for residents and visitors to recreate. Finishing our equestrian park, and a bike and walking trail system.

-Continue the business friendly environment to maintain a vibrant economy and healthy employment opportunities.

I have been married to Willie Billings for 34 years. I have 5 children and 5 cute grandchildren. I describe myself politically as a constitutional republican. Defending: WE THE PEOPLE. I am transparent. Available to citizens. and always representing citizens. I will be the hardest working public servant in Hurricane.
